The Global Coalition for Social Protection Floors has four major aims:

- to seek to influence international debates on a social protection floor and raise awareness of the ILO Recommendation, based on the joint statement presented to the 101<sup>st</sup> International Labour Conference (particularly relating to the post-2015 MDGs agenda);
- to create a platform for learning experiences among civil society organisations worldwide, including contributing to the development of tools;
- to collaborate with national and regional social protection platforms and/or coalitions, where these exist, particularly those whose efforts seek to promote uptake of SPF objectives; and,
- to advocate for the formation of inclusive coalitions, where these do not exist, aimed at promoting the design, implementation, monitoring and evaluation of social protection floors.

## The Coalition is committed to:

- \* a philosophy of inclusiveness, availability, non-discrimination and mutual respect;
- \* a collective output; and,
- \* solidarity in negotiating positions.

The Coalition further encourages active involvement of all its members, and will be independent of governments and transparent in the way it does business.
